

FOUR THINGS YOU DIDN'T KNOW ABOUT NICOTINE AND TOBACCO

YOU CAN QUIT²
MAKE YOUR FUTURE
TOBACCO FREE

Learn the facts and act now to improve readiness.

Using e-cigarettes won't help you quit tobacco.

E-cigarettes are addictive tobacco products. They are not an approved way to quit tobacco. Talk to your health care provider to learn about proven quit methods such as counseling, quitlines and medication.

Nicotine can impact your readiness in ways you might not know.

Did you know that nicotine can reduce your night vision? It also constricts your blood vessels, causing wounds to take longer to heal.

You can't use smokeless tobacco anywhere you want in the military.

In the Defense Department, the rules are the same for cigarettes, e-cigarettes, JUUL, smokeless tobacco and any other tobacco product. You can only use tobacco products in designated tobacco use areas.

Hookah is a tobacco product.

Smoking hookah is just as bad for you as smoking cigarettes. An hour of smoking hookah is like smoking 100 cigarettes in one sitting.

**To stay mission ready,
stay away from nicotine
and tobacco.**
